

# Vivek Vahini

It has become a fashion to criticize youth about their career-centeredness and lack of interest in the governance of the society. The experience also shows that youth always wants to discuss about many things but there is lack of well managed platform, ANS thought that there should be a platform for college going students to express themselves on matters concerning their future life.

VivekVahini is a loosely knit organization of students and teachers who are interested in changing themselves and the society. To impress the idea of VivekVahini, Dr. Dabholkar visited a large number of colleges covering 20 districts ranging from Nandurbar to Sindhudurga of Konkan. He delivered more than 70 lectures in this tour. On an average 200 to 700 students attended his lectures. After the lecture students and college lecturers were invited for discussion to establish VV. ANS was not worried about the name but insisted that students and teachers should come together and form a forum for discussion undertaking activities. VivekVahini can be established even with 5-10 members. There is no membership fee and it is not intended to collect funds for any of its activities. The forum will be established with due permission from college authorities.

The motto of VivekVahini can be summed up in following words:

**Self-development is in our hands;**

**Rights are necessary, but responsibility should take precedence.**

VivekVahini is not like any other students union, where student community fights for its demands. The platform is for self-development. It is expected that at least once in a week a meeting will be held to set objectives and plan and implement activities.

To start with, members can begin with discussion as an activity. The topics for discussion can be any of the following for the weekly meeting:

1. Scientific Attitude
2. Eradication of Castes
3. Gender Equality
4. Environment Protection
5. De-addiction
6. Science & Astrology
7. Religion & Morality
8. To assist in self-development, following topics can be discussed.

1. Why continuous self-development and for whom?
2. Positive Attitude
3. Acceptance of Changes
4. Mission & Goals
5. Communication Skills
6. Time Management
7. Stress Control
8. Leadership Qualities

At an individual level, the student members can start reading a thought provoking book, make notes and write an independent article on the material studied.

It is also necessary to keep good health since good health is the key to self-development. Simple physical exercise like fast walking, jogging, etc., should be a daily routine for upcoming students. This too can be one of the activities of VivekVahini.

A member should be able to communicate his thoughts properly. Communicating a particular thought or idea to a person innocent of it can achieve this. This should not be allowed to turn into an argument. If one is able to convert the other person to your ideology or set the process of change that in itself is an achievement. If the person is able to point out the flaws in your thought process, more study and thinking is required.

The processes of self-development and establishing link between thought and action go hand in hand. There are many ways of doing it. For example one can either learn at least one additional word to increase vocabulary or make an effort to read serious articles or even simply assist in doing routine household tasks.

Members of VivekVahini can even think of undertaking an activity, which may be useful to the development of society without increasing any financial expenditure. Considering the exploitation of poor and innocent people by unscrupulous elements like Babas and Matajis by displaying 'miracles', the student member can learn these tricks and expose them.

Collective efforts by ANS activists and Dr.Dabholkar have started bearing fruits. A large number of colleges in Maharashtra have come forward to establish VV platform. Students have come together on their own to participate in the activities leading to self-development as well as well-being of the society. All concerned has accepted the concept. A seed has been sown. ANS activists have a greater responsibility to communicate and propagate this concept. Let us hope students of next generation do not have any inhibition in rejecting the age-old practices and rituals, which are harmful to the society. Let us set ourselves time-bound targets and work together confidently towards fulfilling them. Let us be inspired by a sense of mission and rededicate ourselves to the pursuit and attainment of excellence.

## **VivekVahini(RIT)**

In RIT also we found that there is lack of platform for discuss the things. So on 19 January 2016 we held meeting and finalized to start VivekVahini in RIT. We have discussed about many things such as day in a week, place for meeting, time, target mob, etc. And we finalized them as follows,

Day:-Thursday

Place:-Lawn in front of CSE department. (Because discussion should be in open air in free atmosphere)

Time:-6pm to 7pm. (free timing for most of the students)

In this way VivekVahini has been started in RIT with help of Prof. Sandeep Patil and Prof.S.M. Sawant(Dean Student Development

TOPIC Name: Entrovert vs Extrovert

No of students:

• Points Discussed in Session :-

1. Differences in introverts and extroverts characteristics have a significant impact on how they spend their free time. Introverts typically enjoy spending their time participating in solitary activities that allow them peace from others. These activities can vary depending on someone's interests. Still, generally, activities such as reading, writing, listening to music or podcasts, or single-player games and activities are all excellent options for introverts. On the other hand, extroverts are more inclined to spend their time with others; extroverted people usually like to attend large social events, go out on the town, or participate in group games and activities
