**Subject:** Mechanical Engineering Department Reading Club activity 2019-20 report.

Respected Madam,

The Reading club activity of 2019-20 has been conducted; there were total eight groups in the department. The activity conducted on 03 Oct 2020 from 6 pm to 8 pm by using MS Team online platform.

The activity was worthy to have great outcomes picked from the books of the entire group. All the Eight groups have presented and discussed their book findings and interesting facts in it. All faculties were present at the activity.

Few outcomes picked from the books are,

- Early hours of the day are of key importance.
- The way we think towards any phenomenon in life may solve most of the problems.
- Meditation is important for soul refreshment.
- Always try to focus on strong skills.
- By creating urgency of any important tasks, we can do that task on priority basis

Report of activity with group details and outcomes picked from the book is attached to this letter.

Thank you for your encouragement for conducting such activity.

With Regards.
