

Improvement Plan Report

Curriculum: B.Tech. in IT 2016-2020

Term: 5 - Semester

Course: Computer Algorithm(IT3031)

Problem Statement:	Solve problems like change making problem, shortest path and minimum spanning tree.
Root Cause:	Problem solving skills are poor
Corrective Action:	Logic Building
Action Item:	Think Pair Share will be implemented to improve the logic building of students. More focus will be given on real time problems.

Term End Exam

Problem Statement:	Identify appropriate algorithm design strategy to a given problem
Root Cause:	Analysis of problem is poor
Corrective Action:	To improve Problem analysis
Action Item:	Group discussions will be arranged for analysing the complexity of problem. More focus will be given on mathematics.
